

**CARGO
METALL** GmbH

Lead and Lead alloys

Origin: Russian Federation/Bulgaria

Primary and Secondary Lead and Lead Alloys

soft lead, antimony, calcium, copper or other alloys for manufacturing batteries, cable insulations, radiation shielding, roofing plates, foils or weight purposes

Battery Applications

- Soft Lead 99,99
- Soft Lead 99,985
- Soft Lead 99,975
- Lead Antimony Alloys
- Lead Calcium Alloys

Roofing Applications

- Lead Copper Alloys

Cable Insulations/ Radiation Shielding

- Lead Tellurium Alloy
- Lead Tin Alloy

Shapes

- Ingots ca. 30 – 40 kg
- Blocks 0,9 – 1,5 t
